

# Company Policy Manual

## ABC Technologies — General Company Policies

This document outlines the standard customer policies for refunds, cancellations, and account management at ABC Technologies.

**1. Refund Policy:** We offer a 30-day money-back guarantee. Customers can request a full refund within 30 days of their initial purchase. Refund requests made after 30 days of purchase are not eligible for refunds. All refunds are processed back to the original payment method. Refunds exceeding ■5,000 require management escalation and human-in-the-loop validation.

**2. Subscription Cancellations:** Users can cancel their subscription at any time via the billing portal. Upon cancellation, the subscription remains active until the end of the current billing cycle. No partial refunds or pro-rated credits are given for unused portions of the cancellation month.

**3. Account Closures:** If a customer requests to permanently close or delete their account, the request must be processed by our User Security Team. Account closure is permanent and deletes all user data. To ensure security, account closures must be routed for human manager approval.

**4. Compensation Policy:** In the event of a service outage or severe application bug, support agents are authorized to offer a token compensation. Agents may issue up to a maximum of ■5,000 credit or 1 month of free Basic service. Any compensation requests exceeding ■5,000 must be reviewed and approved by a supervisor.
