

Technical Manual

ABC Technologies — Technical Manual and Troubleshooter

This manual provides technical specifications, upload rules, and troubleshooting instructions for the ABC Technologies application platform.

1. File Upload Specifications: The application supports file uploads. The maximum allowed file size is 50MB. Supported file formats are PDF, PNG, JPEG, and ZIP. Uploading any other format or files exceeding 50MB will result in an upload error.

2. Troubleshooting Upload Crashes: If the application crashes or freezes while uploading a file, follow these steps:

Step 1: Check your network connection. A drop in network connectivity will interrupt upload streams.

Step 2: Verify the file size does not exceed the 50MB limit.

Step 3: Ensure the file extension is one of the supported formats (PDF, PNG, JPEG, ZIP).

Step 4: Clear your browser cache and cookies, then reload the page.

Step 5: If the crash persists, check the developer console for error headers. If you see a 500 Internal Server Error, please report it to our engineering team.

3. Password Requirements & Reset Procedure: To maintain account security, all passwords must be at least 12 characters long and include at least one number, one uppercase letter, and one special character (e.g., !, @, #). If you forget your password, click the 'Forgot Password' link on the login screen. Enter your registered email to receive a password reset token.
